

IDENTIFICATION

COMPANY

Manufacturer GYPTEX
Address Cra. 10 # 5 - 18 BG-04 BAQ
Phone number +1 (305) 857 5171

PRODUCT

Chemical family Vinyl-Acrylic Dispersion
Chemical name Water based coatings
Presentation Gallon and 5 Gal bucket

COMPOSITION

Formation of ingredients.

Fillers silicates and carbonates.
Binding vinyl acrylic, acrylic, styrenes.
Pigments titanium dioxide, and pigment dispersions.
Antifoam siliconized.
Bactericide isothiazolinone.
Thickeners cellulosic and acrylic.
Vehicle water.

HAZARD

In adequate conditions of use, this product does not pose any health risk.

Effects of acute or repeated exposure

Inhalation

If an allergic reaction to any of its components occurs, irritation of the respiratory tract may occur.

Ingestion

When ingested, may cause irritation of the gastrointestinal tract.

Skin

May cause irritation with redness. Sensitivity to some of its components can cause allergy.

Eyes

Contact with eyes may cause severe irritation. Consult a specialist doctor.

PROPERTIES

Physicochemical.

Appearance¹ liquid soluble in water
Specific gravity 4.90 - 5.00 (water = 1)
Boiling point NA
Melting point NA
Viscosity 100 - 125 Krebs
PH 8,5 - 9,5
Solubility soluble in water

Ecológicos

Stability stable.
Incompatible materials with aromatic solvents
Decomposition risk none
Risk of polymerization none

Toxicological

None known.

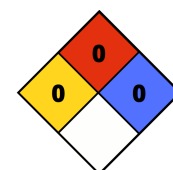

PROTECTION

During the application it is convenient to follow these recommendations.

Handle in a well ventilated place.
Usar safety glasses (required) y protective gloves (optional).

Fire and explosion

Not applicable to auto-ignition temperature, extinguishing means and fire fighting procedure.

¹odor and physical state

SAFETY SHEET

COVERLEAK

Code SS-002

Version 1

FIRST AID MEASURES

Emergency procedures and first aid.

Overexposure

No dangerous effect under reasonable exposures of use.

Ingestion

If any amount has been ingested, give plenty of water to patient and seek medical attention.

Inhalation

In case of dizziness move the patient to a ventilated place. If symptoms persist seek medical information.

Skin effects

Let water flow over skin.

Eye contact

Wash with plenty of soap and water and seek medical attention.

Note to physicians

After providing first aid, direct communication with a toxicology is essential to provide information for the medical management of the affected person, based on their condition, existing symptoms, and the chemical characteristics with which it came into contact.

RECTIFICATION

The data recorded on this sheet is based on the information provided by the suppliers of the raw materials and chemical products used in the manufacture of the aforementioned product. **GYPTEX CORPORATION Miami FL. USA. & Escobar y Montoya S.A.S.** does not make any guarantee regarding the accuracy of the information provided by its suppliers, and disclaims all liability arising from the consequences of such information.

MEASURES

Accidental spills

Cover with absorbent material or wash with plenty of water.

Waste disposal method burying where permitted or burning.

Storage

Stored for up to 12 months as long as the container is immediately closed after each intake and no water is added. For storage, choose a cool and dry place.

Handling

Avoid, during handling, contamination with other products, this could cause bacterial inoculation and deterioration of the product (e.g. dirty hands and water without bactericide)..

Waste disposal

The generation of waste must be avoided as much as possible by any means.

Transportation

Does not apply UN regulation.
